B. Final Review of the Draft Report – Efficiency Report for the Dundee Township Park District

Peterson explained that the purpose of the Decennial Efficiency Report process is to demonstrate the good practices the Park District follows with its day-to-day operations. This opportunity shows the community and Kane County the strong relationships we have with local governments, organizations and other entities. During this process, agreements, policies and shared services remind the board, committee and community that we truly work efficiently and value relationships that we have.

Staff shared the report with other local park districts and Peter Murphy and Jason Anselment, of IAPD. Our report received compliments based on the large volume of cooperation/agreements in place with our local partners, thus by demonstrating our commitment to collaboration. This is partially due to the Park District encompassing multiple villages/municipalities, but also by the board's willingness to operate responsibly. The Efficiency Report reflects changes provided over the last year.
